Our community college system is being decimated in San Francisco and Peralta Community College District and threatened throughout the state despite a state \$15 billion surplus. In CCSF, classes and whole departments face liquidation including Ethnic Studies, Music, Vocational training, Nursing and LGBTQ.

This panel will look at the attacks on what is going on, and how we can fight privatization and union busting including the Lumina supported funding formula leg-

islation that punishes working class students and community colleges. This was passed by a Democratic controlled legislature & Democratic governor.

These attacks are also taking place throughout the country as well and are part and parcel of systemic racism hitting Blacks, Latinos, Asians, and all working class students who deserve the right to go to college.

We cannot and will not accept the destruction of our community colleges, and we have the power to stop it.
